## Work Experience

### React Native Developer | Yuvasoft Solutions Pvt Ltd

*Dec 2025 -Present*

#### MagicalSwap- Rental solution App | *working...*

- *Magicalswap Rental Solutions* is a rental platform for Indore that connects tenants and property owners with **verified rental listings** and **local area-manager support** to help the rental process
- **Upgraded the app version and dependencies (React Native / Android build setup)**, fixed build/compatibility issues, and performed regression checks to keep the production app stable for an active Play Store user base. Google Play
- **Worked on a large-scale rental app codebase** and supported ongoing development by analyzing existing modules (property listing/browsing, search/filter, and owner-tenant flows), assisting with bug fixes and small UI/UX improvements while onboarding to the architecture.

### React Native Developer | Ultraxpert Technologies Pvt Ltd

*Apr 2025 – Dec*

#### Drinking Buddy – Social Networking App | *React Native, TypeScript, Expo, React Navigation, Socket.IO, Google Maps SDK, Payment Gateway, EAS Build*

- Developed core app features including **real-time chat**, club discovery using **Google Maps**, and in-app payments for Android and iOS.
- Implemented secure **Google Sign-In (OAuth 2.0)** with token-based session handling and protected screens.
- Managed **EAS build and release** configuration for Drinking Buddy, handling app IDs, signing and publishing to Play Store / App Store.

#### CRM Autodialer – Mobile Sales App | *React Native, TypeScript, Expo, Zustand, FCM, AsyncStorage, REST APIs*

- Built a CRM autodialer app that receives leads via **FCM push notifications** and triggers native auto-dial through the device dialer, reducing manual dialing effort.
- Implemented an end-to-end **lead-to-call workflow**: lead notification → auto-dial → call duration tracking via AppState → outcome capture → history sync with backend APIs.
- Used **Zustand** for managing lead and call state and **AsyncStorage** for JWT token persistence and seamless, secure logins.

### SDE Intern | Site Guru and Websotech

*June'24 -Aug'24*

- Built responsive web dashboards using **Vue.js & Vuetify**, cutting page load times by ~40% and improving usability on desktop.
- Owned authentication and API-driven flows for **100+ daily users**, integrating backend APIs and fixing production issues to improve reliability.
